

television receivers, except for video monitors, from Taiwan. The fifth administrative review covered the following companies: Action Electronics, Ltd. (Action); AOC International (AOC); Funai Electric Co. (Funai); Hitachi Television, Ltd. (Hitachi); Kuang Yuan (Kuang Yuan); Nettek Corp., Ltd. (Nettek); Paramount Electronics (Paramount); Philips Electronics Industries (Taiwan), Ltd. (Philips); Proton Electronic Industrial Co., Ltd. (Proton); RCA Taiwan Ltd. (RCA); Sampo Corp. (Sampo); Sanyo Electric (Taiwan) Co., Ltd. (Sanyo); Shinlee Corp. (Shinlee); Shin-Shirasuna Electric Corp. (Shirasuna); Tatung Co. (Tatung); and Teco Electric and Machinery Co., Ltd. (Teco) for the period April 1, 1988, through March 31, 1989. Action, AOC, Proton, and Tatung were the only companies whose weighted-average margins were affected by the remand order. In accordance with the Court's determination, we are hereby amending the final results of this administrative review.

**EFFECTIVE DATE:** August 3, 1995.

**FOR FURTHER INFORMATION CONTACT:** G. Leon McNeill or Maureen Flannery, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-4733.

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

On July 10, 1991, the Department published in the **Federal Register** (56 FR 31378) the final results of the fifth administrative review of the antidumping duty order on color television receivers, except for video monitors, from Taiwan, covering the period April 1, 1988, through March 31, 1989.

Subsequent to the Department's final results, Zenith Electronics Corporation, a domestic producer, alleged before the Court that the Department erred in calculating the value added tax (VAT) for the above-named companies. The Court agreed and remanded the issue to the Department to recalculate the VAT according to the Department's new methodology set out in *Independent Radionic Workers of America v. United States*, Slip Op. 94-144 (September 16, 1994). As a result of the recalculation, we have determined that the weighted-average margins for each company are as follows:

Action .....	2.20 percent.
AOC .....	1.53 percent.
Funai .....	4.44 percent.

Hitachi .....	10.82 percent.
Kuang Yuan .....	0.0000 percent.
Nettek .....	10.82 percent.
Paramount .....	10.82 percent.
Philips .....	10.82 percent.
Proton .....	0.60 percent.
RCA .....	5.74 percent.
Sampo .....	0.78 percent.
Sanyo .....	4.66 percent.
Shinlee .....	10.14 percent.
Shirasuna .....	10.82 percent.
Tatung .....	0.0003 percent.
Teco .....	5.46 percent.

The decision became final on March 9, 1995, when the Court issued its final decision on this administrative review in *Zenith*.

##### **Amended Final Results of Review**

Based on our revised calculations, we have amended our final results of review for the period April 1, 1988, through March 31, 1989. The amended weighted-average margins for each company are shown above. The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. Individual differences between U.S. price and foreign market value may vary from the percentages stated above. The Department will issue appraisal instructions directly to the Customs Service.

This notice is in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and § 353.22 of the Department's regulations.

Dated: July 26, 1995.

**Susan G. Esserman,**

*Assistant Secretary for Import Administration.*

##### **University of Hawaii, Notice of Decision on Application for Duty-Free Entry of Scientific Instrument**

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.

**Docket Number:** 94-069. **Applicant:** University of Hawaii, Honolulu, HI 96822. **Instrument:** Nitrogen Liquefier, Model MNP 10/1/300. **Manufacturer:** Stirling Cryogenics and Refrigeration, The Netherlands. **Intended Use:** See notice at 59 FR 31208, June 17, 1994. **Advice Received From:** The National Institute of Standards and Technology, April 25, 1995

**Comments:** None received. **Decision:** Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. **Reasons:** The foreign instrument provides liquid nitrogen at 10 liters/hour with purity beyond 99% for a variety of cryogenic applications. The National Institute of Standards and Technology advises that (1) these capabilities are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

**Frank W. Creel**

##### **Applications for Duty-Free Entry of Scientific Instruments**

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C.

**Docket Number:** 95-054. **Applicant:** California State University, 1250 Bellflower Blvd., Long Beach, CA 90840. **Instrument:** Real-Time 4 Camera System, Model VICON 370. **Manufacturer:** Oxford Metrics, Ltd., United Kingdom. **Intended Use:** The instrument will be used for analysis of cyclical motion in human subjects, primarily during walking, balancing, and other functional activities. In addition, the instrument will be used for educational purposes in PT 301 and 302. Anatomy and Kinesiology and PT 475, Research Methods. **Application**

*Accepted by Commissioner of Customs:* June 29, 1995.

*Docket Number:* 95-055. *Applicant:* Dartmouth College, Earth Sciences, 6105 Fairchild Science Center, Hanover, NH 03755-3571. *Instrument:* Thermal Ionization Mass Spectrometer, Model MAT 262/RPQ. *Manufacturer:* Finnigan MAT, Germany. *Intended Use:* The instrument will be used to measure isotope ratios of various chemical elements, such as Ca, Sr, Nd, U, Th, Pb, and OS in order to find new information about the evolution of the Earth throughout geologic time. Studies will be used to constrain the processes responsible for mineral weathering and soil formation, rock petrogenesis, meteorite impact, and biogeochemical element cycling in aquatic and terrestrial ecosystems. In addition, the instrument will be used for demonstration purposes, laboratory assignments and student projects in several earth science courses.

*Application Accepted by Commissioner of Customs:* June 29, 1995.

*Docket Number:* 95-056. *Applicant:* Dartmouth College, Earth Sciences, 6105 Fairchild Science Center, Hanover, NH 03755-3571. *Instrument:* MAT 252 Mass Spectrometer Upgrade. *Manufacturer:* Finnigan MAT, Germany. *Intended Use:* The instrument will be used to add ConFlo flow injection and elemental analysis capabilities to an existing gas-source mass spectrometer. With these capabilities, stable isotope ratios of H, C, N, O and S and elemental concentrations of N, C and S will be measured for geological and environmental samples. These measurements will support a wide range of research projects undertaken by faculty and students. In addition, the instrument will be used for demonstration purposes, laboratory assignments and student projects in several earth science courses.

*Application Accepted by Commissioner of Customs:* June 29, 1995.

*Docket Number:* 95-057. *Applicant:* University of Connecticut, Psychology Department U-20, 406 Babbidge Road, Storrs, CT 06269-1020. *Instrument:* Fiber-Electron Manipulator System. *Manufacturer:* Thomas Recording, Germany. *Intended Use:* The instrument will be used for studies of the electrical activity of brain cells (neurons) of the cerebral cortex with the primary goal of understanding the mechanisms whereby individual cortical neurons obtain their unique repertoire of response properties. *Application Accepted by Commissioner of Customs:* June 29, 1995.

*Docket Number:* 95-058. *Applicant:* University of Maryland, College Park,

Institute for Plasma Research, College Park, MD 20742. *Instrument:* Scanning Electron Microscope, Model XL-40. *Manufacturer:* Philips, The Netherlands. *Intended Use:* The instrument will be used for studies of the following phenomena: (a) micromachining with focused ion beams, (b) modification of integrated circuits, (c) ion lithography, and (d) ion beam - electron beam interactions in solids. Experiments will be conducted primarily to investigate the interactions of ion beams with solid materials in order to improve the "surface finish" that can be achieved while, e.g., producing optical elements in solid state lasers or preparing materials for observation with electron microscopy. The instrument will also be used for educational purposes in a graduate course in liquid metal ion source technology and in short courses to train people in focused ion beam technology. *Application Accepted by Commissioner of Customs:* July 3, 1995.

*Docket Number:* 95-059. *Applicant:* Woods Hole Oceanographic Institution, 183 Oyster Pond Road, MS 40, Fenno House, Woods Hole, MA 02543-1522. *Instrument:* Noble Gas Mass Spectrometer, Model MAP 215-50. *Manufacturer:* Mass Analyzer Products, United Kingdom. *Intended Use:* The instrument will be used to measure noble gas concentrations and isotopic compositions within mantle derived rocks and minerals to help to understand the history and structure of the earth's interior, and formation of the earth's atmosphere by outgassing. It will also be used to measure the concentrations of cosmic ray produced nuclides in surficial rocks and minerals. One of the main goals of this research is to determine ages for Antarctic glacial moraines, and thereby to reconstruct the history of the Antarctic ice sheets. *Application Accepted by Commissioner of Customs:* July 5, 1995.

### **Export Trade Certificate of Review**

**ACTION:** Notice of Issuance of an Export Trade Certificate of Review, Application No. 95-00001.

**SUMMARY:** The Department of Commerce has issued an Export Trade Certificate of Review to VINEX International, Inc. This notice summarizes the conduct for which certification has been granted.

**FOR FURTHER INFORMATION CONTACT:** W. Dawn Busby, Director, Office of Export

Trading Company Affairs, International Trade Administration, 202-482-5131. This is not a toll-free number.

**SUPPLEMENTARY INFORMATION:** Title III of the Export Trading Company Act of 1982 (15 U.S.C. 4001-21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. The regulations implementing Title III are found at 15 CFR part 325 (1993).

The Office of Export Trading Company Affairs ("OETCA") is issuing this notice pursuant to 15 CFR 325.6(b), which requires the Department of Commerce to publish a summary of a Certificate in the **Federal Register**. Under Section 305 (a) of the Act and 15 CFR 325.11(a), any person aggrieved by the Secretary's determination may, within 30 days of the date of this notice, bring an action in any appropriate district court of the United States to set aside the determination on the ground that the determination is erroneous.

### **Description of Certified Conduct**

#### *Export Trade*

##### *1. Products*

All products.

##### *2. Services*

All services.

##### *3. Technology Rights*

Technology rights, including, but not limited to, patents, trademarks, copyrights and trade secrets that relate to Products and Services.

##### *4. Export Trade Facilitation Services (as they relate to the Export of Products, Services and Technology Rights)*

Export Trade Facilitation Services include professional services in the areas of government relations and assistance with state and federal programs; foreign trade and business protocol; consulting; market research and analysis; collection of information on trade opportunities, marketing; negotiations; joint ventures; shipping; export management; export licensing; advertising; documentation and services related to compliance with customs requirements; insurance and financing; trade show exhibitions; organizational development; management and labor strategies; transfer of technology; transportation; and facilitating the formation of shippers associations.

#### *Export Markets*

The export markets include all parts of the world except the United States (the fifty states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam,
